Accessible Design of Public Spaces

Intent
CRFHT is committed to ensuring that public spaces are accessible to everyone. The company complies with all applicable requirements under the *Integrated Accessibility Standards* regulation (IASR) when constructing new or redeveloping public spaces.

Definitions

Redeveloped: A planned significant alteration to a public space. It does not include maintenance activities, environmental mitigation, or environmental restoration.

Guidelines

All employees must participate in training on accessibility standards found in the IASR and the *Human Rights Code* that are appropriate for the duties they complete while at work.

Accessible Parking

CRFHT ensures that any newly constructed or redeveloped off-street parking facilities provide standard parking spaces and wider parking spaces with signage identifying them as accessible to vans. Access aisles are provided for all accessible parking spaces to ensure individuals can enter and exit their vehicles.

Accessible parking spaces are be designated for the use of people disabilities and are marked with an accessible permit parking sign. The number of and location of accessible parking spaces are determined accordance with the IASR.

Obtaining Services

To ensure services are accessible to individuals who use mobility aids or mobility assistive devices, CRFHT complies with the requirements set out in the IASR when:

- Constructing new service counters (including replacing them) and fixed queuing guides; and
- Constructing new or redeveloping existing waiting areas.
