

Dear sir, dear madam
patient of Dr Daniel Séguin

I would have liked to be able to write individually to each and everyone of you as recognition of the very particular relationships I hold with each of you. That however is not possible.

I wish to thank you for the confidence you have put in me over the past thirty years or so, may it have been in Bourget, Orléans, Clarence Creek or Rockland. I have always tried to do my best in taking care of your medical needs.

Due to personal health issues, I have had to leave work and although it was not planned for me not to return to work, it has become quite clear that I will not return to my practice. During my absence, my colleagues have taken turns to see to your needs and I am grateful to them for this.

We have tried to find a permanent replacement doctor who would take on my practice, however this has proven to be quite difficult and the burden too great for my colleagues. You have already received a letter written by the administrative team regarding my departure and the unfortunate reality that we did not find a replacement physician. Some of you have been taken on by some of my colleagues and others have had to seek care elsewhere. I am sorry for the inconvenience it may have caused and believe me when I say I truly wish that I did not have to leave you hanging like this.

I will be forever grateful for the chance you gave me to travel with you in this life journey. I wish you health and happiness. I will be looking forward to meeting you in another time and place and context and will keep a very fond memory of each and every one of you.

Sincerely and in friendship,

Daniel R Séguin
